**Dr. Kenneth Kim, Owner of Dream Medical Group: Redefining Surgery: Dr. Kim's Vision for Bloodless Procedures**

• 2023-09-26

In this enlightening [Grit Daily Startup](#) episode, we dive deep with [Dr. Kenneth Kim](#), a pioneer challenging the status quo of surgical procedures. With a vision of "What if we didn't have to bleed during surgery?", Dr. Kim explores the inherent risks of traditional anesthesia and the stress our bodies undergo during surgical procedures. He sheds light on the outdated methods that have remained unchanged for over a century and emphasizes the need for innovation in the surgical realm. From his groundbreaking techniques that allow patients to take breaks during procedures to his advocacy for a shift in surgical philosophy, Dr. Kim's approach is not just about aesthetics but about reimagining the very essence of surgery. Join us as we uncover a story of true innovation, craft, and the potential future of all surgical procedures.
